Subject: RE: SE Chicago tour

Ron –

Since Natalie and Nathan are out of the office today, I thought I would respond directly. EPA informed the City of Chicago on the same day it informed IEPA that it would be going to southeast Chicago. The City requested we change our date to August 16th to accommodate their inspector, so the tour/inspections are now scheduled for Wednesday. We were not given a list of facilities from the City, rather we told the City where we would be going. The City did request if we have time, to drive around Chicago Port and Railroad/Midwest Marine Terminals as they have a variance request into the City. If there is time we will drive there, in addition to the facilities previously mentioned: S.H. Bell. the facility directly to the south of S.H. Bell (the old Carmeuse facility), and Kinder Morgan.

Let me know if you have any more questions.

Thanks.

Natalie,

I was hoping to get the list of sites the City was going to provide to USEPA. We will still not be accompanying.

Thanks
Ron

Subject: [External] SE Chicago tour

Ron,

Below is the list of sites that will be visited on the planned SE Chicago tour – is this the info that you were seeking? Also, please note the date change, if this changes anything regarding an IEPA inspector's availability.

If you need anything else, please feel free to contact Molly or Patrick directly – I will be out of the office for the next two weeks starting tomorrow, and with Nathan out as well, I want to make sure your questions are answered promptly and correctly.

Thanks,

Natalie

Subject: RE: Inspections in IL

Natalie –

We are going to be touring SH Bell, the facility directly to the south (the old Carmeuse facility), Kinder Morgan, and Chicago Port and Railroad/Midwest Marine Terminals. We are not sure if we will have time to get to all of them, but we are meeting the City of Chicago inspector at 9am and plan to be back in the office by 3pm. We may go out a second time if needed. Also we have moved the tour to Wednesday to accommodate the City's inspector.

Thanks.
